Professional Summary

UX/UI Designer with 4+ years of experience designing enterprise SaaS platforms, industrial applications, manufacturing dashboards, and mobile products, backed by 8+ years of experience in digital design and web experiences. Skilled in user research, workflow analysis, information architecture, wireframing, prototyping, usability testing, and high-fidelity UI design. Experienced in collaborating with Product Managers, Business Analysts, and Engineering teams to transform complex business requirements into intuitive user experiences. Delivered production-ready screens across enterprise manufacturing, monitoring, planning, and operational platforms serving clients including NBC, Blue Star, Welspun, Hindalco, and GE Aerospace.

Core Skills

UX Design

- User Research & Requirement Analysis
- Workflow Mapping & User Journey Design
- Wireframing & Interactive Prototyping (Figma – Advanced)
- Usability Testing & Iterative Refinement
- Dashboard & Data Visualization UX
- Agile Collaboration

UI Design

- High-Fidelity UI Design
- Typography & Visual Hierarchy
- Design Systems & Component Libraries
- Web & Mobile Application Design
- Dashboard Design & Data Visualization

Tools & Technologies

- Figma | Adobe XD | Sketch
- HTML | CSS | JavaScript(Basic) | React(Basic - developer collaboration)

Professional Experience

UX Designer Dec 2022 - Present

Maxbyte Technologies Services Private Limited, Coimbatore

- Designed and delivered production-ready screens across enterprise SaaS platforms, dashboards, mobile applications, and Augmented Reality (AR) interfaces for industrial use cases.
- Conducted requirement analysis, workflow mapping, and stakeholder discussions to transform business needs into user-centric experiences.
- Created user flows, wireframes, interactive prototypes, and high-fidelity interfaces using Figma.
- Designed enterprise applications and operational dashboards for manufacturing organizations including NBC, Blue Star, Welspun, GE Aerospace, and Axium.
- Delivered end-to-end UX/UI solutions supporting production planning, monitoring, traceability, operational visibility, and shop-floor workflows.
- Designed real-time KPI dashboards, Factory TV dashboards, and large-screen monitoring interfaces optimized for production-floor environments and long-distance readability.
- Built reusable design systems and leveraged AI-assisted design workflows to improve consistency, accelerate iterations, and reduce design turnaround time.
- Collaborated closely with Product Managers, Business Analysts, and Engineering teams throughout Agile product development cycles.
- Enterprise Clients: NBC | Blue Star | Welspun | GE Aerospace | BFAL | BSL | Axium

UI/UX Designer

Deziner's Knot Pvt Ltd, Tirupur Jun 2022 – Dec 2022

- Designed web and mobile application experiences for internal and client-facing products.
- Created user journeys, wireframes, prototypes, and high-fidelity UI designs using Figma.
- Collaborated with product stakeholders and developers to translate business requirements into intuitive user experiences.
- Improved usability, consistency, and user engagement across multiple digital products.

Web Designer – E-commerce & Digital Platforms Mar 2017 – May 202

The Chennai Silks Corp, Tirupur

- Managed and enhanced Magento-based e-commerce experiences for one of South India's leading retail brands.
- Designed landing pages, promotional campaigns, banners, and digital marketing assets.
- Developed responsive HTML and CSS pages supporting seasonal campaigns and business initiatives.

Key Projects

NBC – Railway Manufacturing & Monitoring Platform

- Designed operational dashboards and monitoring interfaces supporting railway production workflows.
- Created data visualization experiences enabling better tracking, visibility, and decision-making.

Welspun – Manufacturing Planning & Traceability Platform

- Delivered 150+ screens covering planning, execution, workflow tracking, and production traceability processes.
- Simplified complex manufacturing workflows through intuitive user journeys and dashboard experiences.

Blue Star – Manufacturing Operations Platform

- Designed dashboards and operational interfaces supporting production visibility and process monitoring.
- Improved information hierarchy and usability for plant-level users and management stakeholders.

Factory TV Dashboard

- Designed large-format production dashboards optimized for shop-floor visibility and real-time information consumption.
- Enhanced readability and accessibility for operators, supervisors, and management teams.

Education

JKKM College of Technology

July 2006 - April 2009

Bachelor of Engineering (CSE), CGPA: 8.3/10

Sri Ragavendra Polytechnic College

July 2009 - April 2012

Diploma in Computer Science Engineering, Percentage: 93%

Certifications

UX/UI Assessment Certificate
